ASCDCL Interview Assessment Sheet for the Post of Analyst in ASCDCL

14/06/2019

Sr. No.	Name of the Candidate	Remarks	Result
1	Amaranatha C	The candidate has a good understanding and skill related to Intelligent Transport Systems including hardware aspects. However, the present post advertised requires a candidate with experience and expertise in analysis of data related to public policy.	Not Suitable.
2	Apeksha Bhagwat	The candidate's experience in data analysis is not on scale, and she has no experience of data analysis which can be of relevance to the various projects undertaken as part of Aurangabad Smart City Project.	Not Suitable.
3	Harshal Bhagwat	The candidate has experience related to various government programs specific to data collection and data entry. He has no experience of data analysis which can be of relevance to the various projects undertaken as part of Aurangabad Smart City Project.	Not Suitable
4	Vishal Khillare	The candidate has an extensive experience in data analytics and also is able to articulate the value of data analysis in strengthening the planning and executing of various projects and programs. The candidate is found suitable for the present post as his experience can add a lot of value to improve the project implementation, assessment, and supervision.	Selected
